

CFS

CFS is a single component, solvent based, acrylic sealer applied over concrete and masonry driving surfaces that require hot tire resistance.

CFS forms a durable film which provides long lasting protection when applied over garage floors, warehouse floors and driveways.

- Excellent protective coating for concrete garage floors, warehouse floors and driveways
- Bridges hairline cracks
- Provides an abrasion resistant surface
- Impervious to water, salts, grease, petroleum oils, aliphatic solvents and other common chemicals
- Prevents dusting on new or older concrete surfaces
- Available in Clear Gloss, Cement Gray, #3 Gray and Battleship Gray

Masonry Sealer	May be applied by brush or roller
Packaging	5G pail (36/pallet)
Coverage per gallon	Brick = 150-200 ft ² Concrete = 150-200 ft ²
Application Temperature	Ambient & surface temperature must be 32°F or above and will not fall below that for 48 hours
Mixing	Stir well before use and periodically during use. Not to be thinned.
Dry Time	72 hours at 70°F, 50% RH
Recoat Time	6 hours at 70°F, 50% RH
