

U-PLUG

U-PLUG is a fast-setting (3-5 minutes), hydraulic cement designed to instantly stop running water from seeping through holes and cracks in masonry and concrete.

U-PLUG exhibits excellent adhesion & exceptional structural strength while providing a long lasting, permanent repair.

- Stops running water instantly
- Initial set in 3-5 minutes
- Effective against hydrostatic pressure
- Polymer modified
- Excellent adhesion and exceptional structural strength
- Chloride free, metallic free and sulfate resistant
- Repairs leaking cracks and holes in foundations, basement walls & floors, wells, tunnels, tanks, catch basins, sewers, etc.

Hydraulic Plug	May be applied by trowel or gloved hand
Packaging	50 lb pail (36/pallet) 8 lb pail (6/case)
Coverage	One lb yields 17 cubic inches (3/4"x3/4"x30")
Application Temperature	Ambient & surface temperature must be 40°F or above and will not fall below that for 48 hours
Mixing	Enough water to form putty like consistency
Working Time	3-5 minutes at 70°F
Set Time	5-10 minutes at 70°F
Color	Gray
