

ROAD PATCH

ROAD PATCH is a fast-setting, one component, Portland cement based, patching material which sets strong enough to support normal traffic in just one hour after set.

ROAD PATCH expands as it sets minimizing shrinkage cracks while providing a tight seal.

- Sets within 30 minutes
- Ready to support normal traffic just one hour after set
- Repairs highways, roads, bridges, parking decks, ramps, warehouse floors, shipping areas, etc.
- Expands as it sets
- High compressive strength
- Resists water erosion
- Excellent freeze-thaw resistance
- Use for any concrete patch that requires a minimum build-up of one inch

Repair Mortar	Trowel apply at a minimum of 1" thick
Packaging	50 lb bag (49/pallet)
Coverage per 50 lb bag	One 50 lb bag yields .45 cubic feet
Application Temperature	Ambient & surface temperature must be 40°F or above and will not fall below that for 48 hours
Mixing per 50 lb bag	2-2/3 quarts of water
Working Time	15 minutes at 70°F
Set Time	30 minutes at 70°F
Color	Gray
